EXPERIENCE

11/2022 – present

Senior Consultant | Senior Software Engineer
CGI, Düsseldorf, NRW

- Lead the development of critical features for a large, highly customized B2B Magento-based e-commerce platform - team size 5
- integrating custom logic for functionalities such as quick order, Order management with Manhattan OMS, search with Algolia & reindexing.
- Implementation of application & database optimizations that led to a 20% performance boost on the platform and significant increase in customer satisfaction (as reported by improved NPS scores).
- Drove the adoption of new technologies such as Algolia for search, Websockets for asynchronously handling add to cart actions.
- Perform code reviews, mentor junior devs with tailored roadmaps & onboarding new members
- Develop & manage the containerization of the dev stack using Docker, automate dev tools, & support the DevOps team with CI/CD integration.

06/2021 – 10/2022

Lead Consultant | Software Engineer
CGI, Düsseldorf, NRW

- Team lead for the premium jewelry B2B e-commerce platform (team size: 3). Leading the engineering team to deliver the Magento migration project as well as new features, following agile principles.
- Maintained ERP integrations with SAP & resolved recurrent data inconsistency issues in the reservation and release of precious stones across ERP, ordering system, and Magento.
This resolution effectively addressed a major source of customer dissatisfaction and earned recognition from C-level executives.
